

HILTON HOTEL – Riyadh

AEROFOAM® NBR

Client:
Hilton Hotels & Resorts

Location:
Riyadh, KSA

Consultant:
Omrania Assoc. Arch. & Eng. Cons.

MEP Contractor:
Unistar Electromechanical Contr.

The Aerofoam NBR insulation has been delivered between 2012 and 2013. For this work all the requested accessories and installing techniques were used according to the manufacturer's indications.

The project involves construction of a five star hotel tower comprising 20 floors offering 645 rooms and suites, and an hotel apartments building comprising 14 floors offering 221 apartments. The project includes amenities such as two floors underground car parking with a capacity of 1,300 cars, celebration hall, restaurants and other services. The project will also involve construction of a 500m suspension bridge that will connect the Granada Oasis project to the Granada Mall and office buildings through the Hilton Hotel.
