AEROFOAM® NBR

The AEROFOAM insulation has been delivered in 2012. The required quantity was 4,500 m of tubes and 15,000 square meters of rolls AEROFOAM NBR. For this work all the requested accessories and installing techniques were used according to the manufacturer's indications.

The market complex is one of the distinctive projects implemented by Dubai Municipality and the construction is going on at a total area of 27,000 square meters. The building consists of a basement, ground floor and first floor and is expected to cater to 232 shops, 15 cafeterias and 32 kiosks, in addition to a car park that can hold more than 300 cars in its basement.
