

Al Falah Community – Abu Dhabi

AEROFOAM® NBR

Client:
Al Dar Projects PJSC

Location:
Al Falah, Abu Dhabi

Consultant:
M/S Althorath Eng. Consultants

MEP Contractor:
Al Jaber Group & Alec Elmech MEP

The AEROFOAM insulation has been delivered between 2010 and 2011. The required quantity was 46,000 m of tubes AEROFOAM NBR, which were delivered always on time. For this work all the requested accessories and installing techniques were used according to the manufacturer's indications.

Al Falah is a master planned community for UAE nationals as part of the Plan Abu Dhabi 2030 directive. The new development provides around 5,000 homes for middle-income UAE families.

Located to the east of Abu Dhabi International Airport and the Abu Dhabi-Dubai highway, Al Falah has been designed as a practical and sustainable community.

Set in lush landscaped grounds, Al Falah comprises of five villages, each with its own village centre, schools, and mosques. The town centre is the focal point of the entire development and contains civic buildings, a retail mall, a hospital, commercial office space, a hotel and a sports and leisure complex. Residents have excellent access to education, with 15 schools for children of all ages from early learning to high school.
