Client:
M/S Sorouh Real Estate (PJSC)

Location:
Sas Al Nakhl, Abu Dhabi

Consultant:
JLA Consultants

MEP Contractor:
M/S Pivot Eng. & General Contr.

The Aerofoam insulation has been delivered between 2010 and 2011 and was used for the plot P-10, phase 11 of the project. The required quantities were 10,000 m of tubes and 4,000 square m of rolls of AEROFOAM NBR. For this work all the requested accessories and installing techniques were used according to the manufacturer's indications.

The Golf Gardens project is a residential community project consisting of 389 villas and town houses of different sizes and types together with a community club house and supporting infra structure and landscape.

The construction in cast-in-situ concrete, and each unit is built on a pile foundation.
