

## INFORMATION TECHNOLOGY COMMUNICATIONS COMPLEX – Riyadh

**AEROFOAM® NBR**

**Client:**  
Public Pension Agency PPA - Riyadh

**Location:**  
Riyadh, KSA

**Consultant:**  
Fayez Zuhair Architectural &  
Engineering

**MEP Contractor:**  
Al Bawani Contracting

*The Aerofoam NBR insulation has been delivered between 2012 and 2013. For this work all the requested accessories and installing techniques were used according to the manufacturer's indications.*

The project involves construction of 4 towers for a communications complex and an information technology park comprising a common basement car park, an underground retail mall and 20 additional floors each. The project includes also 2 business incubator buildings, a sports club, a health clinic, a convention center, several government service buildings, residential villas and apartment blocks as well as a convention hotel. The four towers have glazed scalloped corners and use a double skin facade system to minimize glare and reduce operational cooling loads. The project will also include construction of 17 mixed used buildings.
