

## JUMEIRAH VILLAGE – Dubai

**AEROFOAM® NBR**

**Client:**

-

**Location:**

Jumeirah Village, Dubai

**Consultant:**

Dynamic Engineering

**MEP Contractor:**

EFECO

*The AEROFOAM insulation has been delivered between 2011 and 2012. The required quantity was 25,500 m of tubes and 50,000 square meters AEROFOAM NBR. For this work all the requested accessories and installing techniques were used according to the manufacturer's indications.*

The project involves construction of 523 villas and residential town houses each comprising a ground floor and an additional floor. Located north of Emirates Road and west of Al Barsha Road, Jumeirah Village is bisected by Al Khail Road into triangular and circular portions. The Circle is comprised of commercial, residential and retail components and the Triangle is predominantly made up of villas, surrounded by 30-35 levels residential towers and G+4 levels buildings.
