

OCEANSCAPE – Abu Dhabi

AEROFOAM[®] NBR

Client:

Location:
Corniche, Abu Dhabi

Consultant:
Khatib & Alami

MEP Contractor:
Square Engineering

The AEROFOAM insulation has been delivered in 2012. The required quantity was 10,000 m of tubes and 3,500 square meters AEROFOAM NBR. For this work all the requested accessories and installing techniques were used according to the manufacturer's indications.

The project involves construction of two towers comprising 3 basement levels, a ground floor, 6 podium levels with 29 additional floors in Tower A and 28 additional floors in Tower B. The towers include 8 townhouses on 2 levels and 193 residences consisting of 1, 2 and 3 bedrooms. The towers also include a grand reception area with double height lobby and guest lounge, a lift lobby with multiple smart elevators, camera supervised covered parking on ground, first and second floors and concierge services. The project will provide facilities such as a children's play room, an audio visual entertainment center, relaxation and massage room, a steam room, a sauna room, a health club and retail space on 3 levels.
